

Wix Website Update #3 (Final)

You have been working hard on your work and your portfolio for three months and now it's time to show off what you have accomplished. You will present your final version of your portfolio to your peers and use any feedback you receive to make final adjustments. Portfolios will be graded next week by the end of the day Tuesday, May 11th.

You should have already uploaded your work from the Photoshop (Wix update #1) and Illustrator (Wix update #2) units. This time around you should upload your work from InDesign.

- Business Card
- Flyer
- Magazine Cover

Take a look at your website and see if you have unified each page with a similar theme. Ask yourself:

- Is my site easy to navigate?
- Can I move between pages easily?
- Is the information on each page presented in a way that is easy to understand?
- Will someone who doesn't know anything about our class know what they are looking at?
- Does each page have a logical, consistent layout unifying the entire site?
- Do I need to update any of my designs? Did I redo any work?

Your final portfolio will be graded on the following:

1. Welcome page: This is your home page introducing yourself and your site
2. Portfolio: All of your work is organized, labeled with a description and easy to view.
3. Theme: You have an overall theme (color, organization, layout) that unifies your site.

Make 100% sure the link you share in our group forum is working. If I cannot find your site, you will receive a zero for your final portfolio grade.
